Multiform Sample Yarn Dyeing Machine

The Absolute choice

Multiform Sample Yarn Dyeing Machine

Features:

- Uniform dyeing.
- Easy operating turbo pump.
- Heating and cooling provisions are provided.
- Batch capacity: 50gms to 300gms
- Fully automatic.
- Individual programming of every dye pot.
- Assured reproducibility and levelness of dyeing.
- Pot has its own individual and automatic draining.

Technical Specification:

- Maximum working temperature: 150°C
- Maximum working pressure: 6kg
- Heating rate: Low temperature 2°C /High temperature 1°C
- Cooling rate: Water cooling system
- MOC: SS316
- Capacity: 50gms to 300gms
- Panel board: Fully automatic
- Application: For sampling number of yarns separately in one machine
