

GK BANANA CHIPS CUTTING MACHINE

GK Banana slicer is suitable for slicing banana. Especially made to ease the process of chips making .It is used to slice Bananas fastly and perfectly .The plantain slicing machine is wholly made of stainless steel,very durable in use .The slicing thickness can be adjusted by increasing or Increasing or decreasing the spacers.With high slicing efficiency, banana slicer machine works perfectly in the banana chips production line.

Features

- Advanced technology
- Easy to Operate ,Energy Savings , huge output.
- Beautiful appearance, meeting the hygiene standard.
- The plantain slicing machine is wholly made up of stainless steel
- The Slicing Thickness can be freely adjustable
- Ideal to reduce labour intensity, time-saving, high efficiency.
- Motorized brush for cleaning blade

Technical Features

Model	Specification
Capacity in Kg/Hr.	Upto 120
Motor	0.5 HP/,1/3rd HP, single phase
No.Of.Motors	2
Voltage	230 V
Phase	1
Construction	SS & Cast Aluminum
Dimension	24 x 25 x 28
Blade Size in mm	Slicer :1.5mm,1.2, 2mm,3mm,6mm
